PROFILE

As a highly motivated engineer, I am constantly seeking to expand my knowledge and skills in new and emerging technologies. With 5 years of experience in competitive programming, I have demonstrated my ability to excel in challenging and dynamic environments. My background in mathematics and algorithmics has equipped me with strong problem-solving skills that I bring to my work as a backend engineer and tech lead. I am proficient in C++, Java and JavaScript, with a solid grasp of object-oriented programming and design patterns that lets me deliver efficient and maintainable code.

SKILLS

Java

Spring Boot

C / C++

React

TypeScript

Distributed Systems

Database Design

Design Patterns

Docker / Cloud

EXPERIENCE

Software Engineer — Peoplewalking

Mar 2021 – Present

- Key role in the design and development of a centralized application for the Agency of Certification (ANCERT), Spain, including a mortgage portal.
- Built a demo MVP with Procvivis for digital certification and deed signing using wallet-based authentication.
- Led technical design and development of multiple features for Xpertopolis, delivering on-time with cross-functional teams.
- Led the team for client Zertiban, coordinating daily stand-ups and collaborative delivery.

Java, Spring Boot, Docker, React, TypeScript, PostgreSQL, Wallet Authentication, Digital Signatures

EARLIER EXPERIENCE

Java Developer — Cognicore

Aug 2023 – Nov 2023

Developed microservices for a startup's core application using Java, Spring Boot, Docker and PostgreSQL.

Python Developer — Matcom Grader

Aug 2022 – Dec 2022

Improved platform design and performance for a competitive-programming judge used across the Caribbean region; migrated content to Markdown and built a custom logging module.

ICPC Assistant & Executive Director — Universidad de Oriente

Sep 2019 – Mar 2022

Led organizing teams preparing and executing ICPC programming contests.

Computer Science Professor — Universidad de Oriente

Sep 2019 – Mar 2022

Taught Logic Math and Data Structures & Algorithms; received the CITMA Award for Young Researchers in 2019.

Freelance Full Stack Developer — Freelance

Oct 2020 – Mar 2021

Built responsive websites for small businesses in a two-person agile team, using React and MySQL.

C++ Developer — Centro de Biofísica Médica

Sep 2017 – Jun 2021

Contributed to Imagis medical imaging software, developing 10+ features and mentoring junior developers in C++.

EDUCATION

Master's degree in Computer Science

May 2024 – Oct 2024

Harbour.Space — Spain

Bachelor's degree in Computer Science

Sep 2014 – Jun 2019

Universidad de Oriente — Cuba

- Graduated with Gold Title and Scientific Merit Award; ranked among the top students of the 2019 class.
- Degree thesis on Information Retrieval.

Graduated Courses

Jan 2020 – Jun 2021

Universidad de Oriente — Cuba

Mathematical Foundations of Computing Jan 2020 Theory & Practice of Programming Languages Mar 2020
Computer Networks Oct 2020 Digital Image Processing Jan 2021

CERTIFICATES

Problem Solving Certificate — HackerRank	Nov 2020
React Certificate — HackerRank	Dec 2020
JavaScript Certificate — HackerRank	Apr 2022
Flutter & Dart Certificate — Udemy	Apr 2024
Claude Code in Action — Anthropic	Apr 2025
EF SET English Certificate (B2) — EF Standard English Test	Feb 2023

LANGUAGES

Spanish	C2 — Native proficiency
English	B2 — Professional working proficiency
